HAMILTON, ONT.

The Street Railway Cars from all the Railway Stations pass our Works every five minutes.

SPECTATOR PRINTING COMPANY, PRINTERS AND BINDERS, HAMILTON, ONT.

To the Trade.

We promised you that we would keep ahead of all efforts made to compete with us in our special lines, and are confident you will acknowledge our unqualified success in fulfilling every promise made.

We submit, for your inspection and approval, our Catalogue for the year 1888-9.

We have brought out the Improved Art Garland Base Burner, which we do not hesitate to say is the handsomest stove ever produced, and again far in advance of all competitors.

The Art Garland Range is an advance in artistic work and excellence of construction beyond what has yet been placed upon the market.

The Home Garland Wood Cook Stove, the Floral Garland Parlor Wood Stove, and the Success Coal and Wood Stove, are new, and embrace all improvements in style and working qualities known.

Our patrons are assured that their interests will be well taken care of, and that we will continue to keep our Stoves as far in advance of all imitators as they are at present.

Respectfully yours,

Bowles, Jamieson & Co.

ART GARLAND RANGE.

ON the succeeding pages we show cuts of our New Art Garland Range. This is by far the handsomest Range that has yet been placed on the market, and

We Challenge Competition, both as to Style and Working Qualities.

In this line we combine every improvement and selling feature known to modern stove construction, and many special and exclusive features not to be found in any other line of goods.

In order to meet the wants of all classes, we make this Range with

ROUND FIREPOT

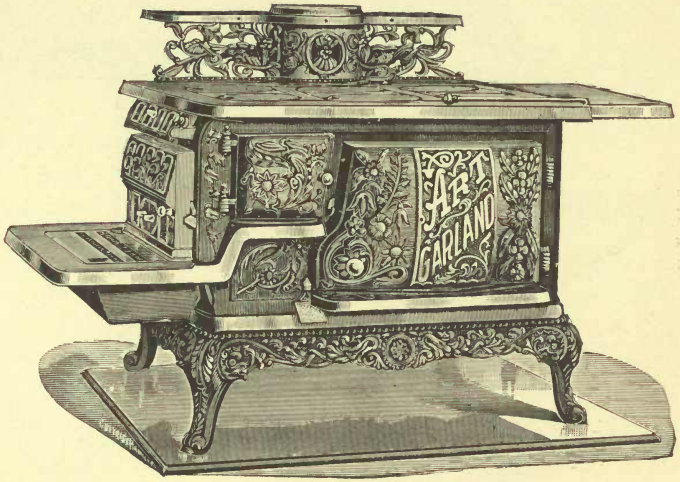

AND

FLAT ANTI-CLINKER GRATE.

THE RESERVOIR can be instantly attached to Square Range on the same principle as our Domestic Garland.

The Domestic Garland.

THE FINEST AND BEST STOVE OF ITS CLASS.

THIS Stove leads all competition. It can be relied upon in every instance to give the most perfect satisfaction. We claim the following

POINTS OF ADVANTAGE.

Greater weight and durability than any other stove of the same size.

Larger flues than any other stove of its price.

Extra heavy double centres, double and cut long centres.

THE GRATE is the best ever put in a coal stove, and can be shaken **easily,** no matter how much coal there may be in the fire box. It is hinged at and dumps from the back, and dumps the entire contents of the fire box directly into the ashpan ; in dumping, a knob has only to be pushed from the outside ; no dust can escape into the room during the dumping process. We claim greater durability than for any coal grate, it being heavier than any other, and being cast almost solid for an inch or more next the fire brick.

Rods mounted outside of stove. Top made in four pieces.

Best feed door, combining advantages of pouch and broiling door feed.

Best and easiest flue-cleaning arrangement.

Hot blast draft.

Extra large, smooth pull-out hearth.

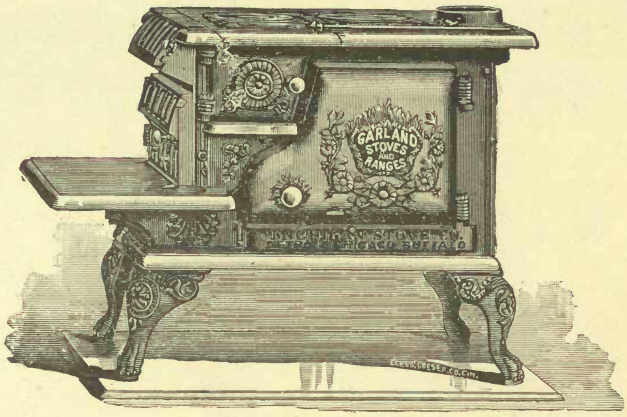

Large ashpan.

Handsomest design. Best mounting. Best proportions.

THE RESERVOIR AND CLOSET can be instantly attached to a square stove, making it a complete reservoir stove. This is a good point for our customers. Our patrons cannot make too strong a point of this special and exclusive feature.

WE GUARANTEE EVERY STOVE.

The Success.

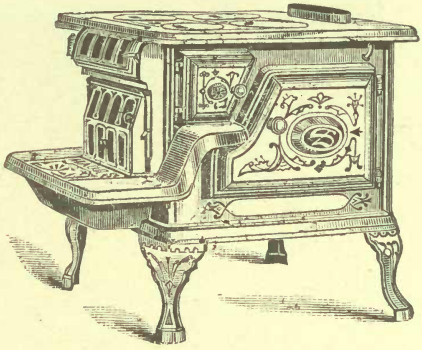

Coal or Wood.

No 8	$ 17 85
" 88	20 74
" 9	21 09

THIS stove is essentially the same as our "Surprise," except in the ornamentation. The exterior design is elaborate. The "Success" is offered in competition with anything of equal grade. It is bound to lead all others in sales and popularity, being thoroughly first-class in design and construction.

The Surprise.

Coal or Wood.

No. 8,	Square	$ 16 92
" 88,	"	19 42
" 9,	"	19 72

With Plain Knobs, Hinge Pins and Ornaments.

A CHEAP, economical stove, and a first-class baker. The reputation of our "Surprise" Cook Stoves is firmly established, and meets every requirement for a good, well-made and substantial stove at a low price.

Home Garland.

THIS line met with great success last year as a first-class wood cook stove.

It is Elegant in Design and Ornamentation, and an Exceptionally Good Worker.

The reputation of this stove is so high, and it has been so well introduced, that we anticipate a largely increased sale for this year.

Home Garland.

With Plain Knobs, Ornaments and Polished Edge.

THE ARCHER is a cheap cooking stove for wood, thoroughly first-class in construction. Has heavy covers, centres, fire back, and double fire bottom, cut top, and extra broad hearth. Its reputation attests it to be the best and most satisfactory stove in operation of its kind.

The Archer.

WITH RESERVOIR AND WARMING CLOSET.

Fire Box, 25 in. Oven 20 x 20

Wood Only.

No. 9, with Reservoir and Warming Closet..... .....$ 30 82

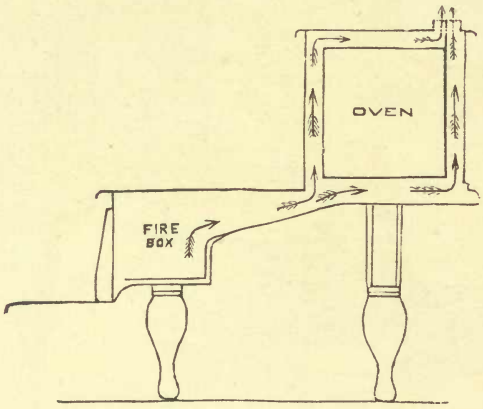

With Plain Knobs, Ornaments and Polished Edge.

THE heat passes under and all around this reservoir, and is so perfectly controlled by a damper that water can be kept at any temperature, and be made to boil in ten minutes.

DIRECT OR CUT-OFF

ELEVATED OVEN STOVE

IN ONE.

THE "Good Luck" has distanced all opposition, and deserves its unprecedented success as a direct or cut-off elevated oven stove in one.

We guarantee this stove to bake faster than any elevated oven stove in the market.

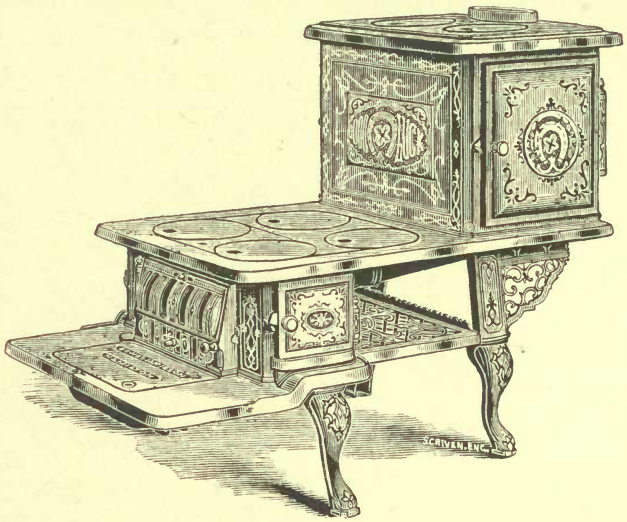

The damper on top of stove gives complete control of the fire, doing away with all necessity for a damper in the smoke pipe.

We authorize dealers to guarantee every stove sold.

The Good Luck.

ELEVATED OVEN.

Oven, 14 x 14 x 26. Fire Box, 27½ in.

Wood Only.

No. 9.....$ 24 60

With Nickel Knobs, Hinge Pins and Ornaments, Tin Lined Doors and Polished Edges, Heavy Covers, Centres and False Bottom.

Floral Garland.

THIS Stove is so artistically and beautifully designed and ornamented as to commend itself to all who see it. The Nickel and Tile Ornamentation is elaborate, and with the Nickel Top, make this stove

THE HANDSOMEST WOOD PARLOR STOVE EVER SEEN.

We were not able to fill our orders for this stove last year, but in anticipation of a large sale this year, we have made such arrangements as will warrant our promising to ship promptly.

Has Swing-out Front Grate.

Back Shelf. *Swing-off Cover.* *Fancy Base.*

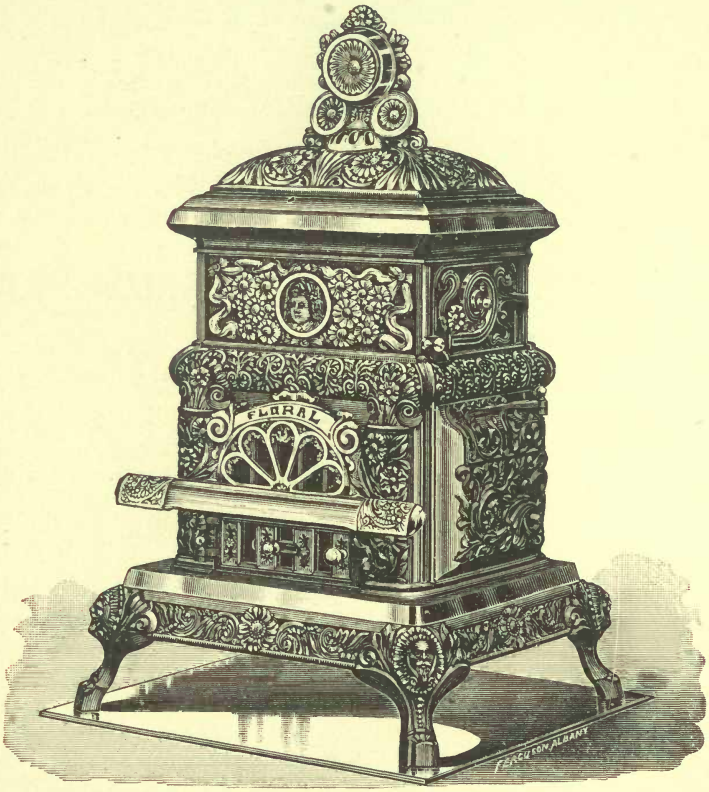

Very Large Fire Door, &c.

THE ELEGANT NICKEL FRONT SCREEN,

WITH FOOT RAIL,

Forms a very rich and handsome Ornament.

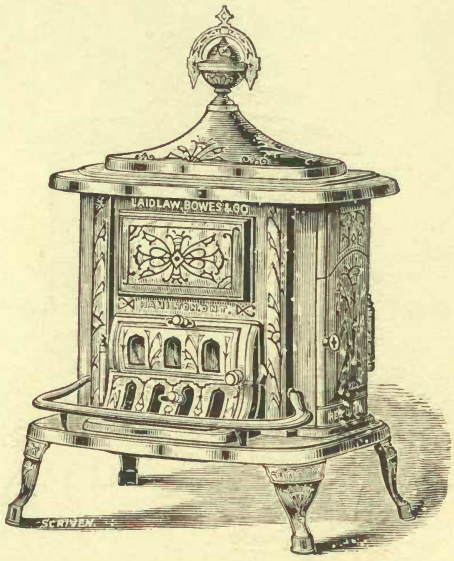

Floral Garland.

Wood Only.

No. 24.....$ 19 80

The St. Julien.

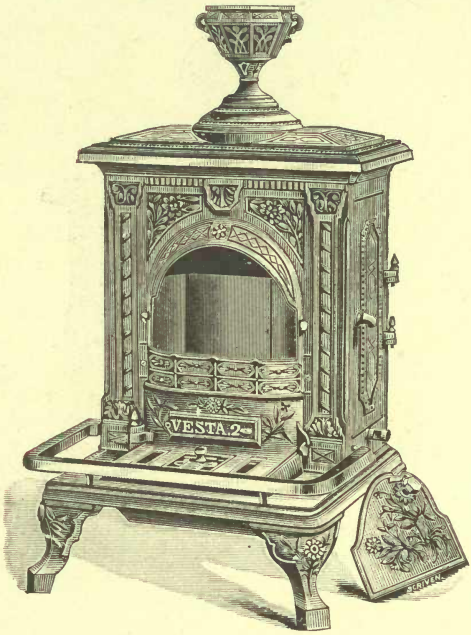

Wood Only.

No. 20, with Nickel Foot Rail.....$ 11 28
" 23, " " 13 54

A VERY desirable Parlor Stove. Attractive, convenient and moderate in price. Has two griddle holes on top, with swing cover; polished edges and nickel foot rail.

The Vesta.

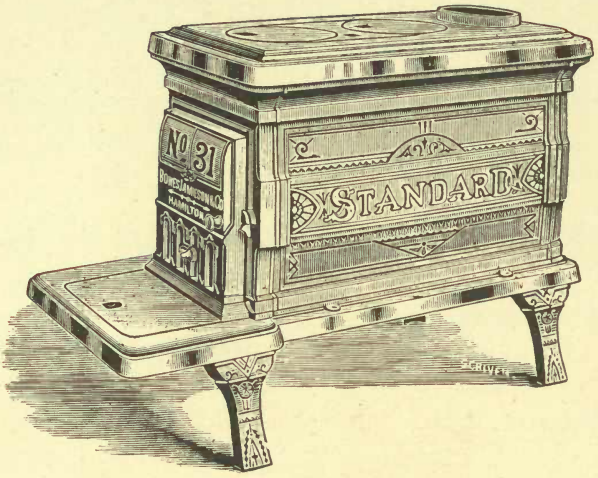

Coal or Wood.

No. 2, with Nickel Foot Rail.....$ 15 63

A FIRST-CLASS Heating Stove, and well calculated for rooms where an open fire is desired.

The Standard.

Wood Only.

No. 23	$ 7 15
" 25	8 91
" 31	12 33
" 36	16 27

THE "Standard" is a first-class heavy Box Stove, handsome in appearance and design, and low priced. It has cook stove top, flush hearth, and large feed door.

Art Garland.

1888.

THE Art Garlands continue to hold the leading position as the best known and best selling stoves of their kind. They are constantly gaining in favor and

Have already Distanced all Would-be Competitors.

The imitations of our 1887 Art Garland have none of them proved as successful as the original. Some of these imitations have been made to resemble the Art Garland in appearance so closely that consumers have been deceived, and for this reason we have perfected the beautiful stoves shewn herewith—Nos. 20, 30 and 40, and Nos. 30 and 40 with oven. We have maintained in this new line all the Art Garland's good working qualities, to which imitations are not able to approach.

There can be no Comparison made with any other Base Burner ever produced.

An adequate description of this wonderful production is practically impossible. It is so strikingly beautiful and so replete with new features that it is sure to outsell any base burner that has ever been made. It will give more heat with less fuel than any other self feeder made.

IT MUST BE SEEN TO BE APPRECIATED.

Art Garland.

1888.

THE illuminating power of the Art Garland is one of its main features of beauty, and so greatly in excess of that attempted by other manufacturers that no comparison can be drawn.

We have utilized the bottom flues to give greater radiating surface than has ever yet been attempted.

The cold air is admitted to the stove through the opening in the base at the front, the supply being regulated by the indicator shewn upon the ash door. By this means PERFECT VENTILATION is secured, and the air so used is made to pass through the fire the same as air which is usually introduced through the draft slide.

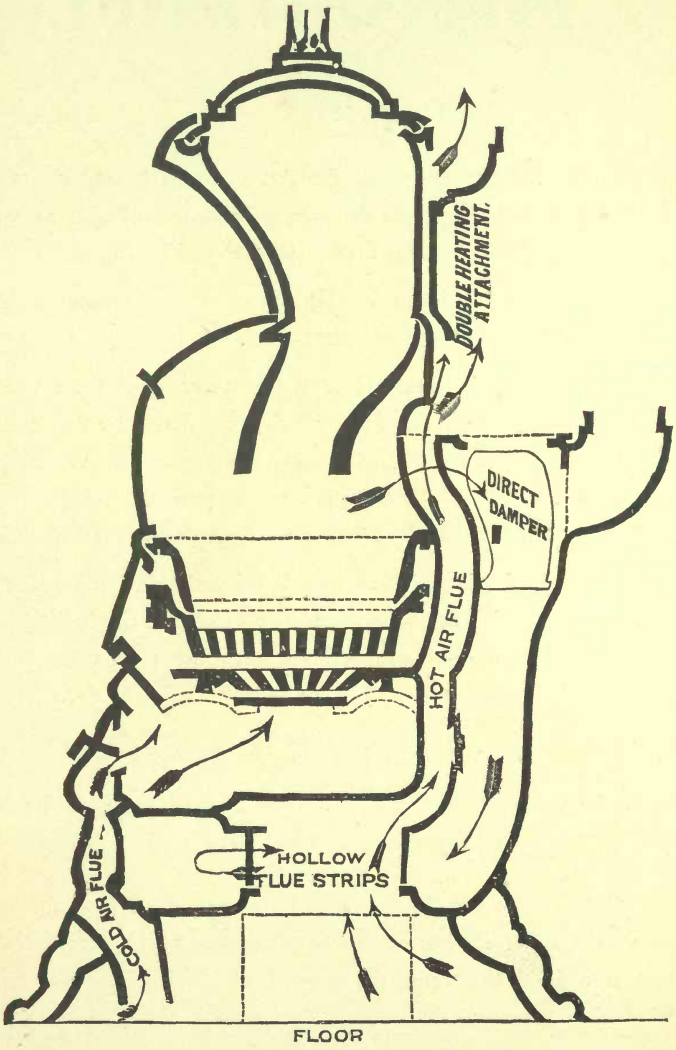

The entire back of these stoves is utilized as a hot air chamber, the cold air entering at the base of the stove being discharged highly heated through openings on a level with the pipe collar, adding greatly to the heating capacity of each stove.

This forms, with our double heating attachment, the best, most perfect and scientific double heating arrangement yet produced.

The fire pot can be taken out through the front mica doors. Above the mica section are three reflectors, which cast a blaze of light from the entire top of the stove.

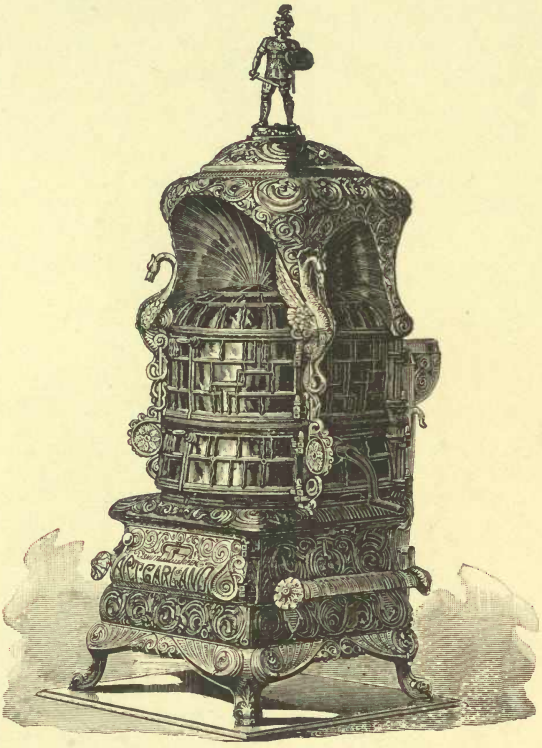

SEE CUT ON NEXT PAGE.

Art Garland.

The above cut shows Sectional Elevation of Improved Art Garland, and construction of Double Heater Hot Air Flues.

" 40 " "	1 54

The Art Garland.

1887.

NO stove ever made has taken such a hold upon the public as our Art Garland Base Burner, and no stove has called forth so many imitations.

OUR ART GARLANDS ARE THE ORIGINALS OF THEIR CLASS.

They have proved the most practical, novel, and attractive stoves ever put upon the market, and cannot be surpassed in

DURABILITY,

SUCCESSFUL OPERATION, AND

HEATING QUALITIES.

Our line of "Art" Base Burners is not equalled in the Dominion, and in favor and sales has distanced all would-be competitors.

Special Points of Merit.

THE heat from the bottom in other stoves is held in by the leg base; in this, every part slopes upward, and the air from every inch of surface flows out at the rear.

The sides of the bottom flues are, in other stoves, covered by the bottom base; in this they are outside, and radiate heat.

Double Ash Pit Flue.

Large Ash Pan 15 inches square in medium size.

The Edges are hollow and part of the Flues.

Grate is accessible from all sides of the stove.

The Flues are large.

Full Illumination at sides and front of Firepot, letting fully one-third more of the radiant heat out through the mica lights than can come through cast iron.

The Tea Kettle Hole is 7 inches, and on oven stove 8 inches.

The Oven is heated by three flues, and is very much larger than that found in Parlor Cook stoves.

The Drum Section is portable, and a current of air keeps the nickel from tarnishing.

The Magazine is closed by two independent covers, which slide off with one movement.

EVERY STOVE IS A DOUBLE HEATER,

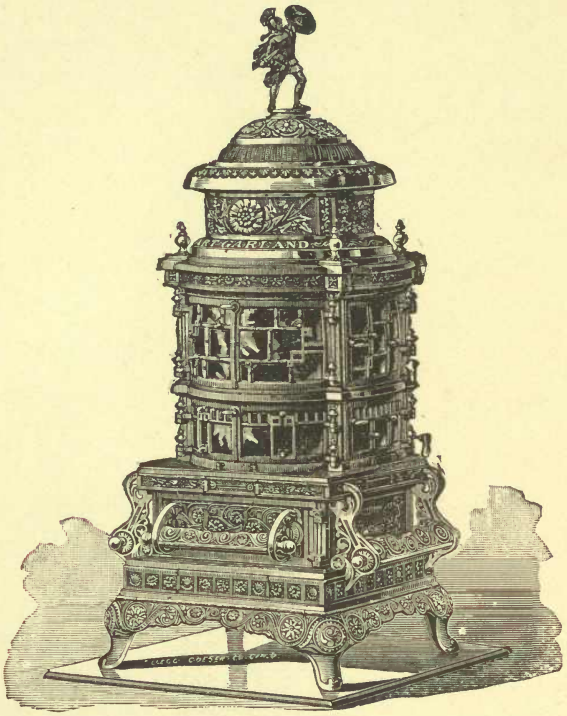

and we are safe in saying that this is the greatest heater yet made, in point of operation, illuminating and heating power, and elaborate finish.

We claim that the Art Garland will give more heat with less fuel than any other stove in the market. It has outsold every imitation.

We authorize our customers to guarantee every stove sold.

The Art Garland.

SO great has been the success of the Art Garland that we made another series of stoves, combining all the good features of the original stove, but with different outward appearance.

MANY ADVANTAGES

are to be had in handling this series over any stove any other manufacturer has been able to offer.

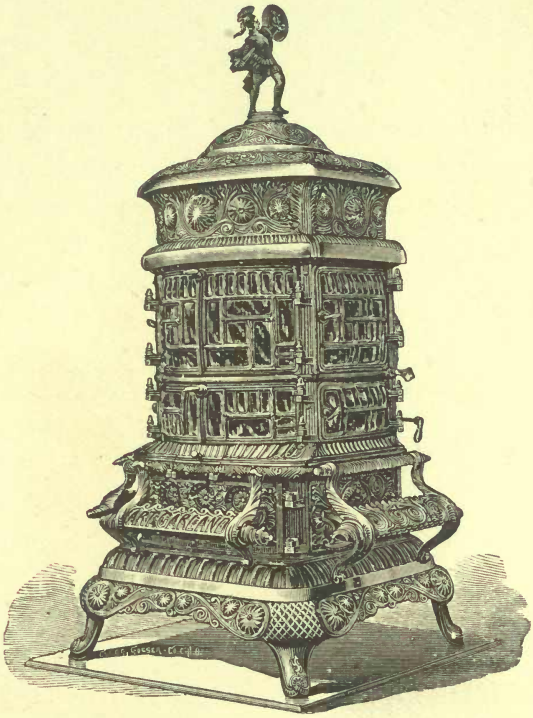

It is only necessary, when two grades are required, to carry in stock the

EXTRA NICKELLED TOP SECTION

to enable a plain finished stove to be converted into a high finished stove at pleasure.

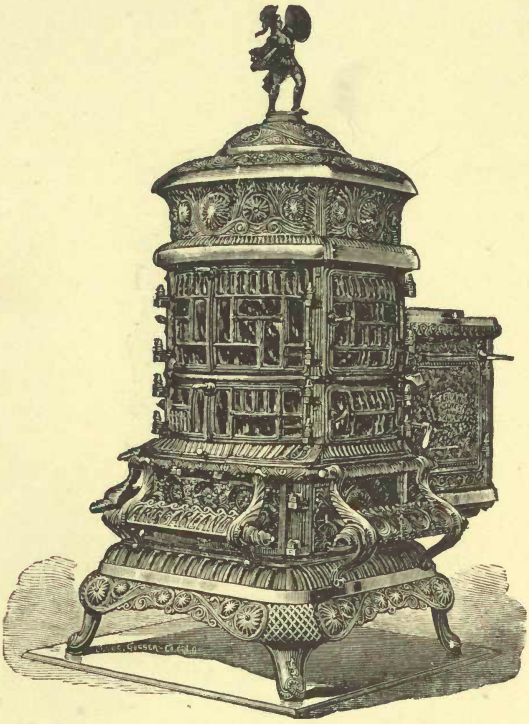

The numbers 333, 444, 555, correspond in size to the numbers 33, 44, and 55, of the plainer finished stove shown.
